Improve UI for Mobile Compatibility #10042

Open

madanalogy opened this issue 29 days ago · 17 comments

Expectations

Submitted PRs should minimally include a screenshot for manual verification of the fix. Please refer to our development guideline on how to work with your copy of TEAMMATES to achieve this. PRs addressing this epic should not "Resolve" the issue but rather be "Part of" the issue (i.e. do not use GitHub auto-closing keywords with your PR). An example of this is #10052

Please also try to run the component tests locally. If the file you're working on has a snapshot, you will need to update that snapshot to pass the CI check. You can refer to the testing guide here and more information about snapshot testing here. You can refer to #9997 (comment) for a more involved guide if you're still encountering problems, or just put up a draft PR and ask for help :)

Working List

This list tracks the pages or components we are aware of that need mobile UI optimisation. It is not a comprehensive list, and if you find something not on this list, feel free to submit a PR or comment here in this issue for feedback! :)

- ☑ Instructor Pages: Edit Feedback Session Page
- ☑ Instructor Pages: Add Feedback Session Page
- ☑ Instructor Pages: Course Details & Edit Pages

```
C:\Users\aliki\OneDrive\Documents\AlikisGitRepos\teammates>npm run lint

> @ lint C:\Users\aliki\OneDrive\Documents\AlikisGitRepos\teammates
> npm-run-all lint:* -c

> @ lint:ts C:\Users\aliki\OneDrive\Documents\AlikisGitRepos\teammates
> ng lint --tslint-config static-analysis/teammates-tslint.yml

Linting "teammates"...
All files pass linting.

> @ lint:json C:\Users\aliki\OneDrive\Documents\AlikisGitRepos\teammates
> jsonlint-cli src/web/**/*.json src/main/resources/*.json src/test/resources,

> @ lint:css C:\Users\aliki\OneDrive\Documents\AlikisGitRepos\teammates
> stylelint "src/web/**/*.scss" --config static-analysis/teammates-stylelint.

> @ lint:spaces C:\Users\aliki\OneDrive\Documents\AlikisGitRepos\teammates
> lintspaces -n -t -d spaces -l 1 -. "src/main/**/*.html" "src/web/**/*.html"
```

Work in GitHub

How can I contribute?

Submitting an issue

We use the issue tracker to contain bug reports and feature/enhancement requests. Before submitting a new issue, search the issue tracker to ensure that there is no similar open issue.

If you are certain that you are reporting a new issue, open a new issue using the templates provided.

Manual testing

We welcome anyone manually testing our product and reporting bugs or suggestions for enhancements in the issue tracker.
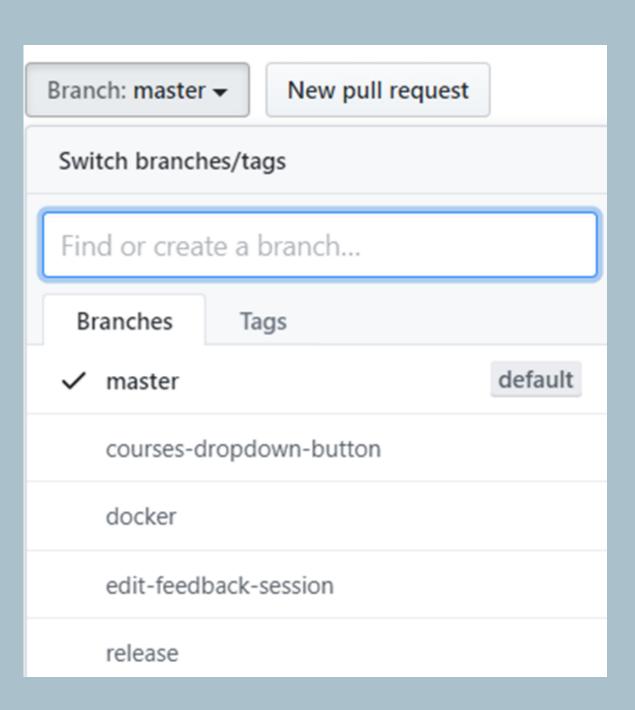

If you want to undertake such a role without actually contributing code, get an instructor account from TEAMMATES. Remember to mention the purpose of your request under "Any other comments/queries".
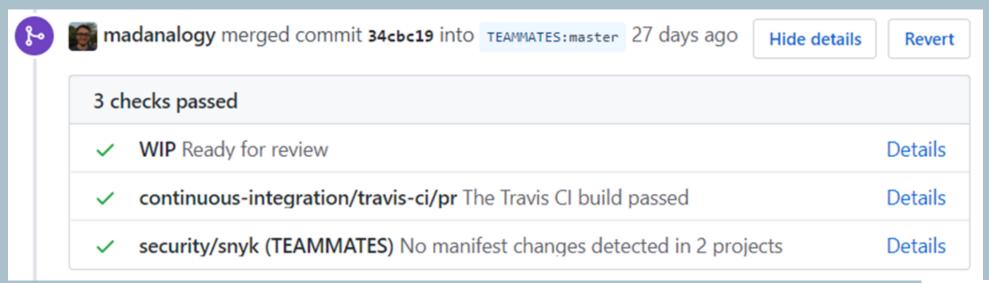

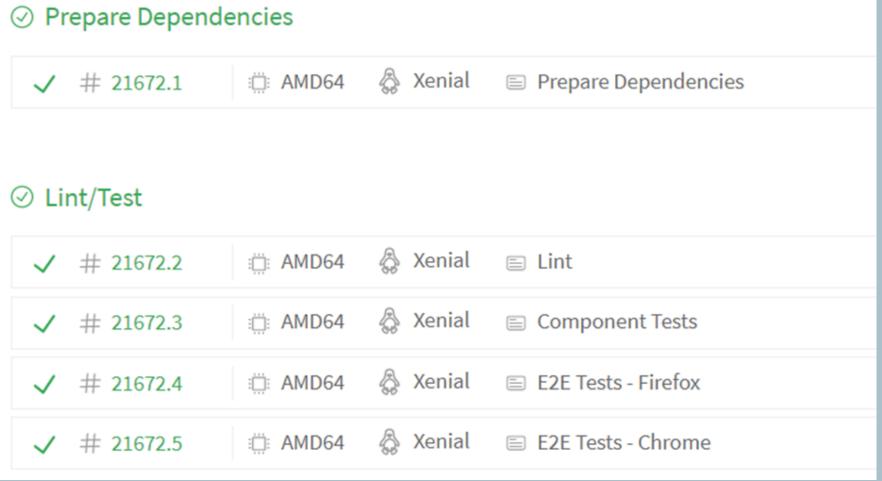

Submitting a pull request

We accept patches/fixes in form of pull requests (PRs). Make sure that the pull request addresses an open issue in the issue tracker. Remember to follow the TEAMMATES Development Process.
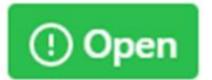

By submitting a PR, you agree to allow the project team to license your work under the terms of the GNU GPL v2 License.

If this is your first time contributing to TEAMMATES, you may want to read up the contributor orientation guide lined out in the next section.

There is no point having both `xs` and `md` with the same column values, as grid classes for a given screen size apply to that screen size and larger. Some useful links: bootstrap, stackoverflow

Also, can we try having content in the center at smaller screen sizes? You can take reference from #10044 on how this is done.

Enhancement looks good, suggest using title case for `Other Actions`. Am I right to assume you want to work on this?
